Website Specification

Girls Flag Football — Digital Platform Strategy

Date: 2026-02-19 | **Prepared by:** TPM Agent

Overview

The website is the organization's most important sales tool. Every Nike conversation, every school district MOU, every parent deciding whether to register their daughter, every media journalist doing background research — they all land here first. It must be **professional, fast, mobile-first, and conversion-optimized on Day 1.**

Platform Recommendation: Webflow (Year 1)

- Professional agency-quality design without engineering overhead
- No-code content management (marketing team updates without developer)
- Fast page load (critical for mobile SEO)
- Clean export path to custom platform if needed in Year 2
- Cost: $23–$39/month + designer setup cost ($2,000–$4,000 one-time)

Alternative if budget is tight: Squarespace ($23/month, $500–$1,500 design setup)

Do NOT use: WordPress (security/maintenance overhead), Wix (looks amateur to sponsors), custom build (too slow and expensive for Phase 1)

Site Architecture — Phase 1 (MVP)

Page-by-Page Specifications

HOME PAGE (Most critical)

Above the fold (what they see before scrolling):

- Full-width hero image/video: Girls playing flag football — action, energy, joy
- Headline: Bold mission statement (e.g., "The game was made for them too.")
- Subheadline: "Arizona's girls flag football league — building athletes, confidence, and champions."
- Two CTAs: [Register Your Daughter] + [Partner With Us]
- Navigation: Clean, minimal, mobile-friendly hamburger on mobile

Section 2: The Numbers (Social Proof)

- X Girls Registered | X School Districts | X Games Played | X Coaches Certified
- (Start with small honest numbers — even 10 is fine at launch. Add this section once numbers exist.)

Section 3: Why Flag Football for Girls

- 3-column value prop: Athletic Development / Teamwork & Leadership / Path to College
- Images of girls at practice

Section 4: Featured Story / Latest News

- Pull latest blog post or player spotlight

Section 5: Partners Row

- Logos of current partners (USA Flag Football, NFL Flag, AZ Cardinals, sponsors)
- Even at launch: "Partnerships in progress" with governing body logos builds credibility

Section 6: Get Involved CTA

- Register / Donate / Volunteer / Sponsor — 4 tiles

Footer: Contact info, social links, 501(c)(3) tax ID, privacy policy

---

REGISTER PAGE

Phase 1 (before registration platform):

- Waitlist/interest capture form: Name, child's name, age, email, zip code
- "Season 1 opens [date] — get notified first"
- Connect to email marketing (Mailchimp or HubSpot Free)

Phase 2 (before Season 1 opens):

- Full online registration via Amilia, Active Network, or SportsEngine
- Payment processing for registration fees
- Waiver and emergency contact capture
- Age group selection

Registration platform recommendation: SportsEngine (industry standard for youth leagues, includes payment + waivers + team management, $99/month)

SPONSORS PAGE (Critical for Nike pitch)

This page must look like you already have a professional partner program — even before partners are signed.

Sections:

1. "Why Partner With Us" — bullet points with key stats and demographic data
2. Sponsorship Tiers table (Title Sponsor / Presenting / Gold / Silver / In-Kind)

3. Current Partners section with logos
4. "Become a Partner" CTA → sponsor inquiry form
5. Impact metrics: Girls served, games played, school districts, social reach

Sponsorship Tier Table:

Tier	Investment	Benefits
Title Sponsor	$50,000+	Name in organization title, all logo placements, event naming rights, content rights
Presenting Sponsor	$25,000	"Presented by [Sponsor]" on events, jersey logo, social media features
Gold Partner	$10,000	Logo on website, jersey patch, social shoutouts (4/season)
Silver Partner	$5,000	Website logo, social shoutout (2/season)
In-Kind Partner	Product/Service	Logo on website, season acknowledgment

---

ABOUT / MISSION PAGE

- Founder story (authentic, personal — why girls flag football, why AZ)
- Mission statement
- Vision statement (national expansion)
- Core values (3–5 bullets: Inclusion, Excellence, Empowerment, Community, Joy)
- Team photos and bios (coaching staff, board, founder)

Note: This page is the most-read page by Nike and institutional partners. It must be authentic, not corporate. Nike's team will read every word.

DONATE PAGE

- Clear 501(c)(3) language: "Your donation is tax-deductible"
- Giving levels with named impact:
  - $50 = Equipment for one player
  - $150 = Registration scholarship for one player
  - $500 = Gear for an entire team
  - $1,000 = Season sponsor for a school district team
  - Custom amount
- Payment: Stripe or PayPal Giving Fund (lower fees for nonprofits)
- Impact counter: "Raised to date: $X" (even at $0 at launch — update weekly)

Technical Requirements

Requirement	Spec
Mobile-first	65%+ of traffic will be mobile (parents on phones)
Page load	< 2 seconds on mobile (Google Core Web Vitals)
Analytics	Google Analytics 4 + Google Search Console

SEO	Optimized for: "girls flag football arizona", "flag football girls league AZ", "youth flag football girls"
SSL	Required (HTTPS mandatory for payment + trust)
Accessibility	WCAG 2.1 AA (required for school district partnerships + grant eligibility)
CMS	Non-technical staff must be able to update news/events
Email capture	Integrated with Mailchimp or HubSpot Free
Social sharing	Open Graph tags for all pages (Instagram/Facebook share previews)

Phase 2 Website Upgrades (Before Season 1 Opens)

- Player registration portal (SportsEngine or custom)
- Season schedule and standings
- Score reporting
- Player/team profiles
- Photo gallery (game and practice photos — critical for social media and Nike pitch)
- Video embed section (YouTube highlight reels)
- Volunteer signup form
- Coach application form

Phase 3 Website Upgrades (After Nike Deal)

- Nike co-branded elements (if contractually required)
- National expansion pages (Texas, California, Florida chapters)
- Chapter directory / chapter application
- Merchandise store (Printful or Shopify integration)
- Alumni section / college pipeline tracking
- Press kit / media room (downloadable logos, photos, fact sheet)

Content Calendar — First 90 Days Post-Launch

Week	Content Focus
Week 1–2	Founder story, mission post, "why flag football for girls"
Week 3–4	Coach spotlight, coaching philosophy
Week 5–6	School district partnership announcement
Week 7–8	Season 1 registration open announcement
Week 9–10	Player testimonials / parent quotes (waitlist interest)
Week 11–12	First practice day coverage

Social Media Priority Order:

1. **TikTok** — Primary growth engine. Girls aged 10–18 live here. Authentic, raw practice footage performs better than polished content.
2. **Instagram** — Primary trust/credibility platform. Parents research here. Polished brand content.
3. **YouTube** — Highlight reels, coach clinics, player spotlights. Evergreen content that compounds over time.
4. **Facebook** — Parent community communication, event announcements.
